## PROFESSIONAL SUMMARY

Software Engineer II with 3 years of frontend and full-stack experience across Angular, React, Python REST APIs, Java, Node.js, and AWS.

## EDUCATION

### BULACAN STATE UNIVERSITY

• Information Technology • Bachelor of Science

January 2019 - January 2023

### NEXT GENERATION TECHNOLOGICAL COLLEGE

• AutoCAD and Animation

January 2017 - January 2019

## EXPERIENCE

### Software Engineer II

#### TSUKIDEN GLOBAL SOLUTIONS INC.

August 2025 - Present

- Develop and maintain client-facing system features across React, Angular, Java, and Python-based projects.
- Integrate REST API-connected features, improve UI/UX, and align frontend behavior with backend responses. Work with AWS-supported tools including Amazon RDS, Amazon Cognito, and CloudWatch.
- Perform testing, debugging, documentation, Jira tracking, sprint reviews, and client demonstrations.

### Software Engineer

#### TSUKIDEN GLOBAL SOLUTIONS INC.

October 2023 - August 2025

- Built frontend and backend features for client systems using Angular, Python REST APIs, Java, and React.
- Implemented CRUD operations, data processing, file uploads, file reading, report generation, and issue fixes. Collaborated with team members to plan tasks, document progress, and deliver client-requested changes.

### Trainee Software Engineer

#### TSUKIDEN GLOBAL SOLUTIONS INC.

July 2023 - October 2023

- Learned software development workflows, SDLC practices, testing, debugging, and documentation.
- Assisted with Angular frontend development, scripting, quality assurance tasks, and bug resolution.

## PROJECTS

### Professional Projects

#### PartnershipManagement System | Angular, TypeScript, HTML, CSS

- Redesigned and improved frontend screen to deliver cleaner UI/UX, better navigation, and more consistent user flows.

#### Project Management System | Angular, Python REST APIs

- Developed frontend and backend functionality, integrated REST APIs, implemented client-requested features, and resolved reported issues.

#### Crypto Wallet System | React, Java REST APIs, AWS

- Improved frontend logic, API-connected workflows, application flow, and UI behavior with exposure to Cognito, RDS, and CloudWatch.

### Personal Projects

#### PersonalPortfolio | React, Render

- myportfolio-nt2k.onrender.com - Built and deployed a portfolio website to showcase experience, featured projects, resume, GitHub, and contact information.

#### Ledgerail | Web Application

- ledgerail.onrender.com - Built a login-based web application focused on organizing scattered files into structured records, including UI flow, backend integration, debugging, and deployment.

#### Cryp-to-Dates | React Web Dashboard

- cryp-to-dates.netlify.app/dashboard - Built and deployed a crypto/token tracking dashboard; handled UI flow, data presentation, debugging, and Netlify deployment.

#### Space Impact Defender | React, Node.js, NeonDB

- zukiaoki.itch.io/spaceimpactdefender - Published a 2D arcade game for Windows and Android; handled gameplay systems, UI flow, debugging, builds, and release through itch.io.

## SKILLS

Frontend: Angular, React, TypeScript, JavaScript, HTML, CSS, XML, REST API integration

Backend/Scripting: Python, Java, Node.js, PHP, REST API development, API integration, CRUD operations

Databases: MySQL, PostgreSQL/NeonDB, PgAdmin

Cloud/Platforms: AWS (CloudWatch, Amazon Cognito, Amazon RDS), Netlify, Render

Tools: Git, GitHub, GitLab, Jira, Mattermost, Microsoft Teams, TortoiseSVN

Practices: SDLC, Agile Scrum, Kanban, Waterfall, sprint planning/reviews, software testing, test cases, debugging, documentation, client presentations

Generic: English, Digital art, light video editing
